# Grill OPMG-series

OPMG-series, grill, 40 mm - 80 mm

OPMG is a stylish, efficient and modular grill for in and out flow of air such as doors, cabinets or walls. The grills are designed for interior use. Available in different colors and lengths. The grills are available as intermediate and end pieces, these parts are easily assembled with a snap function.

## Cleaning

The valve is cleaned with normal detergent.

## Color

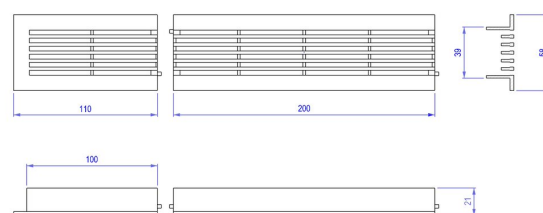

The product is available in white, brown and gray. Other colors can be delivered by agreement.

## Material

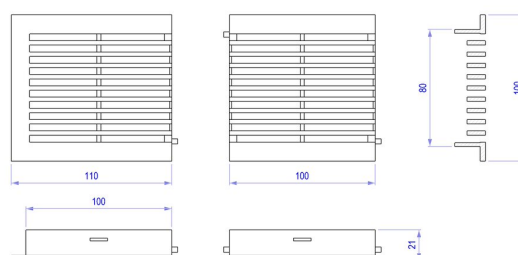

The grill is made of polypropylene plastic that can withstand temperatures up to 120 degrees Celsius. The material keeps its color over time and is recyclable..
